Health & Safety Policy

At this setting we have taken all reasonable steps to ensure that all hazards to children on these premises, both inside and outside have been minimised.

The premises both inside and outside are secure and children are never left unsupervised. Outdoor water activities are closely supervised at all times and there are no hazardous plants or equipment on the premises. However, if these are present, they are made inaccessible to the children.

When children have access to the kitchen, they are supervised and we ensure that they are not exposed to any hazards. All gas, electrical and other appliances and fittings conform to safety requirements and do not pose a hazard to the children. A fire blanket is provided in the kitchen area and all smoke alarms are maintained and in working condition.

Arrangements for outings to parks or playgrounds are adequately supervised and that safe control of the children is always maintained.

We currently have in place a Public Liability Insurance policy with the NCMA, which is underwritten by Royal Sun Alliance.

All registered persons on the premises are committed to promoting the good health of children and take positive steps to prevent the spread of infection and take appropriate measures when they are ill.
